The BLUEPRINT Philippines - NEW CONSTITUTION

1. FEDERALISM

2. LISTED: CRITERIA FOR PROBLEMATIC EVENTS EXPLAINED:

State controlled federalism will bring about problematic events if organized in the common tradition.

a) **Do not fragment into separate States** where the Central Government or Council stands apart from the Sectional Councils throughout the Islands of the Philippines.

b) **There must be safeguards** put in place while the transition out of the capitalist monetary system takes place. However, too many safeguards would merely become a headache to the Central Council of Twenty-Four because the many hidden clauses in print and schemes which exist today could result in being secretly kept away from the Central Council of Twenty-Four and this must be prevented.

c) **The Constitution** does in no wise need remodeled. The Constitution needs replaced because the Constitution was drawn up and modified as to the enlightenment and understanding of the days gone by. A band-aid approach will only lead to the dissolution of the Federated Original System for the Peoples, by the Peoples own hand if nuts cracked do not belong in the oyster, so to speak.

d) **Should the Sectional Councils** within each of the (Villages, Towns, City Districts) control their own designated sections apart from the Central Council of Twenty-Four as seated in Manila, War Lords shall either continue or new War Lords be established, and nothing shall change for the Peoples who will then continue to live in a war shed of tyrannical illusion as being for the good of all.

e) **The Original System of Federalism** as ye ones so quaintly call it is not in any wise a dictatorship. It cannot become a dictatorship simply due to the fact that the round table of Twelve to Twenty-Four has the stability of equal number of both men and women not forsaking a child or more beyond his or her intellectual means of mind, control of self in both wisdom and understanding and previous life experience, therein there shall not be the control of only one or two. The same set-up of Council must stand in each and every Sector (Village, Town, City District) in order to prevent one man rule or anarchy stemming from those whose eyesight is faint with the understanding of past tradition not pertaining to the Original System as first placed upon this world by the pioneering races from other world planets.

The BLUEPRINT Philippines - THE LAYOUT OF THE CONSTITUTION

1. INTRODUCTION

Sisterhood, Brethren, Good Day to ye All. The Blueprint of the Federation of Free Planets has been well prepared for this day. We have covered nearly every segment if not all for the Philippines, since the Philippines changed from the time of the first landing upon the Islands.

Sisterhood, Brethren, there are a few things you are to know.

2. ELECTIONS

Elections will dissolve the Philippines and keep it fragmented which will only further the contention between tribal regions and those electorates in more central regions. Those who clamour to be elected are usually ones who clamour for the big paycheck and work to strive how to best keep it at the hour of the next election.

Therein must the Federation of Unified Councils which we shall call the SECTIONAL COUNCILS within (Villages, Towns, City Districts) within the (Philippine) NATION, be set up likened to a WORLD BODY for the Asean nations and their neighbours, and regulated. In essence the NATION of the Philippines, for instance, will then join together with the surrounding ASEAN NATIONS to form the CENTRAL ASEAN NATION. In time, other foreign nations, once they perform their own CENTRAL NATIONAL BODY shall be able to do business with the CENTRAL ASEAN NATION on a scale of trade without the burden of utilizing money.

This will be called the CENTRAL ASEAN NATION.

3. CENTRAL ASEAN NATION

You see this is how it all works:

- a) the (Villages, Towns, City Districts) join together within their respective NATION (Philippines)
- b) the NATION (of the Philippines) join together within the **CENTRAL ASEAN NATION.**

4. BLUEPRINT

a) **BLUEPRINT MEANS “THE CONSTITUTION.”** Each man, woman, and child will be given a copy of the Blueprint to study and memorize of its contents following and during the teaching of the Blueprint at District schools and universities. Each individual will be responsible for knowing and living its contents.

This blueprint is the **New Constitution of the Philippines** as written for the people, consisting of the people, and carried out by the people of the **CENTRAL ASEAN NATION** under the **Federation of Unified Nations of Free Planets** of where your forebearers did originally come from.

b) **PARADISE.** Paradise should not be a place of problems but rather a place which has eliminated all problems through the Oneness of the **Universal Mind** which distinctly comprises of the Higher Evolved Beings whether they be the Enlightened Starship Commanders, or Higher Evolved Beings from other worlds within the Universes.

d) **NON-RELIGION MEANS A PEACEFUL ENTRY INTO PARADISE.** It originated from far away cultures upon other planets. It is a concept. It is a reality. It is a truth not compromised by lower evolved thinking and doing. There is no bowing, **only recognition of the power of One Mind, One thought, the Oneness of life, love and beingness.** Untarnished by the mind and will of the lower understanding of man. It means no excuse to war, nations one against another.

e) **HUMANKIND MUST EVOLVE TO BECOME THE HOLY UNIVERSAL MAN AND WOMAN OF CREATION.** This is the original and true meaning of HUman.

f) **CENTRAL ASEAN NATION MEANS “THE GATHERING OF ASEAN NATIONS WITHIN THE FEDERATION OF UNIFIED PLANETS.”** Consisting of Two Enlightened Representatives from each NATION. Telepathy required. Must be of uniform mind working in the Oneness. Otherwise they become ineffective and fragment the group such as in a democracy. Enlightened Leadership of twenty-four per NATION. Telepathy required. Age, Sex, not a requirement.

For (the Philippines) MANILA will be the place which houses the twenty-four enlightened telepathic leaders of the National Council. The PHILIPPINES will be completely rebuilt, as it was in the beginning

g) **SECURITY PANEL.** The Security Panel of twenty-four sits in the capital of the Philippines, in Manila. The Security Panel shall consist one of Military; and a Security Panel of twenty-four heads of police. These Security Panels work in orderly professional fashion in guiding the Philippine military and police in its Security Panel Sections throughout the Philippines where major problems may arise.

Each (Village, Town, City District) shall house their own Security Panel: One of police chiefs and one of military heads. These Security Panel sections of (Villages, Towns, City Districts) shall only draw on the advice of the Security Panel in Manila when necessary. In this wise the nations shall be governed in an orderly fashion without stress and too much load being placed on any one shoulder. Telepathy not required.

5. NATIONAL, SECTIONAL AND PEOPLE'S JUSTICE COUNCILS

a) **NATIONAL COUNCIL.** The National Council of twenty-four sits in the capital of the Philippines, in Manila. Their duties consist of taking all the collected itinerary from the Sectional Councils of twenty-four from the cities throughout the Philippines who in turn have their Sectional Councils of twelve from the (Villages, Towns, City Districts) who in their respective duties collect and place in computers the needs of the peoples (ex: food ingredients per family per month).

When this has all been placed at the end of each month in the **CENTRAL NATIONAL COMPUTER** by the National Council, then it is the duty of the National Council to import those goods from other nations within the **CENTRAL ASEAN NATION** "only" when supplies demand it.

There will be a Sectional Council set up to gather all the numbers of food items grown in the Philippines which will then be allotted "equally" matching the needs of each family within the Sectional Council (Villages, Towns, City Districts) so "all people" shall be fed to their needs and enjoyment. The food shall be vegan.

Other duties of the National Council of twenty-four is to assume responsibility of trade of workers between the Philippines and other nations within the **CENTRAL ASEAN NATION and Foreign CENTRAL NATIONS GLOBALLY.**

Remember all present Off-Shore Filipino and Filipina workers will no longer exist since there will be no need for them to go abroad for wages or higher wages. The only criteria for Filipino or Filipina workers to go abroad for work is upon an agreed "temporary" trade with a nation within the CENTRAL ASEAN NATION or to a Nation within another CENTRAL NATION. This shall ensure no more abuses will be present among those Filipino or Filipina whose discipline is arranged in other "friendly" Nations for a short period of time.

b) SECTIONAL COUNCILS

There are Sectional Councils of twenty-four and Sections Councils of twelve. Sectional Councils of twelve shall be necessary for those living in (Villages and Towns). (Cities) such as Baguio, for example, shall espouse a Sectional Council of

twenty-four, whilst its (City Districts) shall espouse Sectional Councils of twelve to handle, for example, the number of families, their needs, such as housing, food, and clothing.

Other duties of Sectional Councils consist of grouping people who have placed their talents in the computers of the Sectional Councils to work together with others. For example: in occupations such as road building and assigning them the project of construction of roads, sidewalks and paths, these Sectional Councils may need to bring in workers from other Sections whilst sending workers to other Sections in trade, or where needed.

The Sectional Councils within each (Village, Town, City District) shall also have access to the **CENTRAL COMPUTER** of the National Council with regard to locating, for example, the engineers, the surveyors, the bricklayers for sidewalks and specific roads, and the pavers. Following this, the Sectional Councils of the (Village, Town, City District), group the workers together, bringing some talent in from another district if necessary for lack of workmen or women, and give them the necessary tools held by the Sectional Council of that Round Table Department of Twelve of the (Village, Town, City District), and the workmen and women begin the project.

It is important to note that in order to shift the work load and equalize the work load in rotating labour forces, there shall be many Sectional Councils needed in many disciplines, including Postal Work (Post Offices), Building Code Sectional Councils, Sectional Council Fire stations to oversee their crews, cataloging the peoples needs for end of the month entries to their Sectional Council of twenty-four who shall then make entries into the **CENTRAL COMPUTER OF THE NATIONAL COUNCIL IN MANILA FOR PROCESSING**, designing new workable districts each with a "home" with a water-wok on top for clean drinking water and air-cooling taking away the stress of survival from the peoples, which shall make the duties of the Security Panels and their Sectional forces of police and military, much easier, and run much smoother.

After all it is the continual striving for money which keeps crime on the rise both in the present government and throughout the nation. With much smaller Sectional Councils crime shall be highly viable and evident and easier, therein, to detect. We feel that at this time the Philippines is not ready to equip each citizen with firearms toward the protection of the **NATIONAL COUNCIL** and the **NATION**. Therein, are we "adjusting" the blueprint concerning certain areas of criteria.

c) **PEOPLE'S JUSTICE COUNCIL WILL HANDLE DISPUTES AND ISSUES BY AN ENLIGHTENED LEADER** who is in communication telepathically with Enlightened Starship personnel and Beings from Higher Evolved Worlds. All court systems will be done away with as well as jails, lawyers and judges. These law enforcement agencies shall find that such previous institutions will no longer be necessary but each shall find a seat in one of the "many" thousands of Peoples Justice Councils.

d) **SECTIONAL VOCATIONAL COUNCIL COMPUTERS: PEOPLE MUST POST THEIR TALENTS ON A SECTIONAL VOCATIONAL COUNCIL COMPUTER.** Each person must post their talents on a Vocational Sectional Council computer set up for that purpose so others may ask for their assistance. The Vocational Sectional Council shall operate the computer entries.

Each person must attend the Vocational Council with his or her talent contribution to the whole, from the district they live in, serving first the (Village, Town, City District). They may “volunteer” to serve as a “teacher of a discipline” for a period of time inside another (Village, Town, City District) if a trade is required for a worker from another (Village, Town, City District) or should the discipline not be needed within the "volunteer's home base (Village, Town, City District) at that time. When this is the case the Vocational Sectional Council shall speak with the volunteer and the appropriate Vocational Sectional Council of other (Villages, Towns, City Districts) to arrange the temporary transfer.

People may also attend the Vocational Sectional Council to request the assistance of others. This can be personal, in someone, for example, seeking a painter for his or her "home" or a gardener. This shall be most useful in the areas of Sectional Councils seeking workers for diverse labour opportunities and professional disciplines such as nurses, doctors, laboratory workers, for an example. If the assistance cannot be found in their (Village, Town, City District) workers shall be brought in. **THE PEOPLE MUST BE RELIABLE** with regard to alternating between work and leisure time. Again, stress and crime are eliminated as the blueprint works smoothly.

The **NATIONAL COUNCIL** may require a Filipino or Filipina worker of a vocation to “temporarily” exchange with another worker from another **ASEAN NATION or FOREIGN CENTRAL NATION.**

Each person must post their talents on a Vocational Sectional Council computer set up for that purpose so others may ask for their assistance. The Vocational Sectional Council shall operate the computer entries.

People may also attend the Vocational Sectional Council to request the assistance of others. This can be personal, in someone, for example, seeking a painter for his or her "home" or a gardener. This shall be most useful in the areas of Sectional Councils seeking workers for diverse labour opportunities and professional disciplines such as nurses, doctors, laboratory workers, for an example. If the assistance cannot be found in their (Village, Town, City District) workers shall be brought in. **THE PEOPLE MUST BE RELIABLE** with regard to alternating between work and leisure time. Again, stress and crime are eliminated as the blueprint works smoothly.

e) **SECTIONAL VACATION COUNCILS.** Sectional Vacation Councils are for the purpose of setting up vacations outside of the Nation of the Philippines, for the Peoples of the Philippines.

f) **SECTIONAL PETS AND WILDLIFE COUNCILS.** These Sectional Councils shall oversee the entire non-human Sentient Beings of the Philippines. Their care and their safety whether they be pets, sealife, fowl, domestic animals, crawling and creeping things, along and their habitation, whether Peoples' homes, or habitation upon the island, in the forests, or in the seas.

SECTIONAL COUNCILS. While you will have fewer Sectional Councils of twenty-four, you will have thousands of Sectional Councils of twelve, for many different disciplines and needs. But these Sectional Councils as you can see all intertwine and work together flowingly, alleviating stress for working for monetary gain and capital and in doing so eradicating crime altogether as the blueprint takes shape and form.

The best part of leadership positions is "knowing" how to acquire the attention of your co-workers and exerting the best out of them whilst teaching them their trade or profession. It is not a game of popularity.

The BLUEPRINT Philippines - LEADERSHIP QUALIFICATIONS

1. ENLIGHTENED LEADERSHIPS are composed of individuals whose insight and academic ability surpass that of others. For the highest positions on the **Manila People's Justice Council of twenty-four, telepathy, which is an engagement of minds of higher assistance and calibre, is necessary.** The positions do not require a man or woman to be a lawyer, **for the law is simple and without curves, bends, and hidden clauses. The road shall be straight and not crooked.**

However, occupying seats in certain **Sectional Councils** may also be men or women whom in the past have erred in their ways, but have learned from their mistakes and are at present time working to assist others. **These individuals have much to offer in wisdom and experience.**

Whereas it concerns the police, military, hospital staff, laboratory professionals and teachers, **such qualifications shall be the same and upgraded as the hour progresses.**

2. SECTIONAL PROFESSIONAL COUNCILS

Each (Village, Town, City District) must have the Enlightened and Professional men

and women consisting of Twelve (for the smaller Villages or City Districts) and Twenty-Four people of the greater or larger Towns or City Districts, **though these people may be non-telepathic, just good, honest and understanding people working diligently for the public. These Sectional Councils may include those who have been "reformed" and placed back into society. Many times the insight of these people are invaluable.**

3. SECTIONAL NON-PROFESSIONAL COUNCILS

These Sectional Councils may include those who have been "reformed" and placed back into society. Many times, the insight of these people is valuable.

4. NATIONAL COUNCIL AND THE PEOPLE'S JUSTICE COUNCIL

The Highest positions in the **National Council, the People's Justice Council** but **"not" the Security Panels** in any of their capabilities must consist of equal number of men and women, or (male or female child) of genius capability (for instance - a telepath).

For example, here is how a **People's Justice Council** would look of twenty-four if a child would be included who is a female:

- a) twelve men
- b) eleven women
- c) a girl child

A reminder: Each (Village, Town, City District) shall have their **People's Justice Council**. The people will go to their respective (Village, Town, City District) **People's Justice Council** whose Enlightened and Wise Leaders shall handle everyday situations and minor complaints. **Of these Justice Councils there shall be as many as needed to alleviate waiting time.**

The BLUEPRINT Philippines - PURCHASE ORDERS

1. PURCHASE ORDERS

The National Council in Manila of twenty-four shall be responsible for obtaining the goods and items on the Sectional Councils' Purchase Orders at the end of each month. When this Purchase Order System is first put in place, the people of the Philippines must secure for themselves a "month" supply of food and clothing ahead of time.

The National Council shall then place their Purchase Order for goods and items needed from other Asean Nations' National Councils via the central computer of the National Council in Manila; and later contacting the National Councils of other CENTRAL NATIONS for goods or services which the Philippine nation and its peoples need or items wished for.

This monthly duty belonging to the Sectional Councils of Purchase Orders must "ensure" the Purchase Orders are "transferred" into the data banks of the National computer in Manila on time.

This process in using the **designated Sectional Councils for Purchase Orders**, for the (Villages, Towns, City Districts), of which there shall be many in order to eliminate backup and waiting time, **shall ensure** the people shall hand in their lists of wants and needs on time **not surpassing what is necessary, in order to eliminate all waste.**

There is no time wasted and all begins immediately in a cohesive and synchronized manner.

The time it shall take between **Order and Receiving on both sides** will be the time it takes to gather the goods and items. The **transfer of "volunteers"**(for no one must be ordered), to and from other nations, upon request from the **Philippines** and other **CENTRAL ASEAN NATIONS**, shall be handled in the most professional and immediate manner.

With the goods imported and exported to and from the nations within the **CENTRAL ASEAN NATION** and **CENTRAL NATIONS** of other lands using the “**SILK ROAD**,” shall the **duty-free, tariff-free, money-free Purchase Orders** indeed espouse “**free-trade**” with no barriers of any sort.

2. MINERAL WEALTH

The **Philippines** and the **CENTRAL ASEAN NATION** shall also exchange their resources in mineral wealth as long as the transfer through **Purchase and Receiving Orders** do in no wise contain such as “**rare earth materials**” for bomb making.

Where there is oil and gas deposits please remember this is how the oceans become contaminated, killing the sealife.

Oil and gas can be shared among nations at no cost, for soon with **green energy**, for vehicles as well, very little oil and gas shall be needed, and the sooner the Philippines goes “**green**” the better off everyone shall be. This is why **China** transports their petroleum products from the **Middle East**, in order to keep the “**SILK ROAD**” **Sea clean**.

Warehouses throughout the Philippines will deal internally first with the people of the Philippines, before externally, for those supplies which the **PHILIPPINES** cannot supply for its own people.

The Philippines, of course, shall supply all natural resources and “**volunteers**” in an “**exchange program**” requesting, for example, other specialized **ASEAN doctors and nurses**, to the Philippines, from Singapore. These professionals, for example will work alongside and train Filipino doctors and nurses in other manners of specialized disciplines which the Filipino doctors and nurses may need in order to upgrade their training. **We all of us need to continue on the path of learning and enlightenment shall continue to take root.**

3. EXCHANGE OF PERSONNEL

A volunteer may be brought to the Philippines to teach the Filipinos how to create man-made paradisaical islands out of plastic oceanic garbage; **Singapore could do this** and in return should the **National Council of Singapore** request the **"talents"** and/or professional disciplines of **Filipino workers**, they would simply contact the **National Council of the Philippines** for the volunteer/volunteers for temporary **"transfer."**

We repeat ourselves often because this is of such importance to understand:

Purchase Orders and Transfers of workers, labourers or professionals, are processed ONLY from the National Councils of twenty-four of each individual nation. We shall be closely dealing with more information of the PURCHASE ORDER mechanisms as we go along. You will find this shall be of vital importance.

4. PURCHASE ORDERS AND RESOURCES

The resources which may be requested from the Philippines by other **CENTRAL ASEAN NATIONS**, or nations which have already set in place their **CENTRAL NATION**, can be anything which the **people of the Philippines** of each (Village, Town, City District) can comfortably spare **after the people of the Philippines are "ensured" to first have their own needs met with items, materials or food produce and products, for their own personal use.**

So, in dealing with the Purchase Order system, the people of the Philippines and indeed the CENTRAL ASEAN NATION and foreign CENTRAL NATIONS will benefit and reap the well-deserved fruits of their labour, with no man and no woman, no industry, no bank and no corporation, controlling the All in the realm of THE NATURAL RESOURCES OF THE PHILIPPINES.

We repeat ourselves often because this is of such importance to understand, as Purchase Orders and Transfer of workers, labourers or professionals, are done

ONLY from the National Councils of twenty-four of each individual nation. We shall be closely dealing with more information of the PURCHASE ORDER mechanisms as we go along. You will find this shall be of vital importance.

Leadership, without the ego, commands respect and following when deeds are greater than empty rhetoric. The impact is even more resounding if the actions are accomplished in silence, sight unseen. - JS-R C

A BLUEPRINT for the Philippines - PURCHASE ORDERS FOR THE PEOPLE

1. A SYSTEM FOR THE PEOPLE: PURCHASE ORDERS

The Federation works upon a basis of gaining for the People, that which the people need or want. Certain items needed or wished for by the people of the Philippines will be gathered through Purchase Order forms given out by the Sectional Councils for Purchase Orders, which will inquire of other Filipino (Villages, Towns, City Districts) whether they have the goods, services, or products.

If other (Villages, Towns, City Districts) do have the wanted goods, products, or services, the Sectional Council for Purchase Orders will bring in the goods, products, or services before going to the National Council in Manila to ask them to import from other **ASEAN CENTRAL NATIONS or CENTRAL NATIONS** using the natural resources of the **PHILIPPINES, those items wanted or needed.**

The process is very simple and easy to understand, and having not enough money will no longer stand in the way of any Filipino citizen having what she or he needs or wishes for.

Now let us please explain.

- a) health Care is number one concern in the Philippines.
- b) food consumption is number one concern in the Philippines.
- c) shelter and clothing is number one concern in the Philippines.

All these issues will be dealt with at the very same time. **Simultaneously.** Later on you will see what we mean.

So right now we deal with the goods and services which all Filipinos will need or want,

in the future.

For example, take Health Care:

a) the vegetables and fruits of the Philippines which are in excess will be traded, for instance, to a nation such as Japan, or China, or Indonesia. In return, if needed, those **ASEAN NATIONS** shall call on their experts to "volunteer" to travel to the Philippines, to train Filipino doctors and nurses in the safe use of all formats of ancient and present herbal and acupuncture techniques (for severe pain instead of pain killers which ruin the stomach lining).

b) for those medicinal herbs will the Philippines trade in **vegetables and fruits grown in abundance on a multitude of islands on a continuous basis**, to these nations using the Purchase Order.

c) at other times it shall be the Philippines in its expert knowledge who shall be called upon by other **ASEAN NATIONS WITHIN THE CENTRAL ASEAN NATION** or other **CENTRAL NATIONS** to "volunteer" their services in trade.

d) no money will pass hands, therein no money will be taken from the peoples of the Philippines, keeping then the Original individual (Villages, Towns, and City Districts) **clean of crime, with no temptation toward any person engaging in corruption.**

Thus, when the warehouses of each district have their **Sectional Councils for Purchase Orders** taking counts as to exactly how much holistic medicine is needed from each and every household, hospital, clinic, etc, then that figure will be processed into the next **Trade and Purchase Order form**, and delivered directly to the respective (Villages, Towns, City Districts) warehouses.

Should direct purchases from within the Philippines not be available, then the warehouses in the (Villages, Towns, City Districts) will forward the Purchase Orders to their respective (Village, Town, City District) who will then give the Purchase Orders to the National Council in Manila of twenty-four who shall then contact the National Council of another **ASEAN CENTRAL NATION OR CENTRAL NATION** and speak to them concerning **Trade and Purchase Orders.**

A representative may be sent to explain.

For example:

a) the trade will be organized immediately with no waste of time and every Filipino Citizen will have, in that area, exactly what he or she needs or wishes for without taking more than they need.

b) in this way no goods will go to waste and there will be no overstocking.

c) all vegetables and fruits shall be fresh.

d) **the people will go into a warehouse for their prescriptions, taking with them a Purchase Order form from the doctor.**

e) **also, mild medicines will be available** for each household depending upon the size of the household, **without a prescription.**

f) **any herb grown on the islands for health reasons must be monitored by Agriculture and Health practitioners** as to the doses to cure cancer or other illnesses or relieve stress, or for relaxation. This will eliminate the taking of hard drugs and heavy alcohol to preserve the family.

g) **where special medicines are needed, the laboratories must ensure they are safe for the Peoples to take.**

If for instance, China, or Japan or Indonesia need instruction in architecture by **Filipino Engineers** in such profession, then the Philippines may trade Engineers for Holistic Doctors, for whatever time is needed or allotted to each side.

However, the extra fruit and vegetables grown in large quantities on the islands will still be needed for trade for the holistic medicines and other items of which the Filipino people will need or want when the warehouse stock is becoming depleted.

In this way the Philippines will in turn trade to that nation as well and receive as much medicine as the Philippines needs whenever the Filipinos need it.

In this way, of course, the natural resources of each nation in the world connected with dealing within the **ASEAN CENTRAL NATION** will be able to balance out their resources in every which way and direction.

However, before this happens, each **CENTRAL NATION** of the world need first get its own estranged house in order.

No breaking of anymore Universal Principles “or Higher Laws.”

No more incentive to gamble, or buy harmful drugs, or pilfer money from the people.

You will then see just how quickly all crime and criminal intent pass away for good.

What do you think the people will "vote" for?

This BLUEPRINT for the Philippines, dubbed: "FEDERALISM?"

or whether term-limits for Congress persons and Senators be "voted" on as being of more importance with them giving the people a little gain over the years in comparison to that which the Federation is able to give them in a shortened period of several months time?

They say food for the brain before the stomach. We tell you; a hungry man or woman cannot hear you.

The BLUEPRINT Philippines - IN FEEDING THE MASSES

One cannot rebuild the Philippine Nation into a paradise by oneself, but **"together"** we can do it **working cohesively, determinedly, and as ONE BODY within the whole.** This does not take away individuality of good culture in setting the negative aspects of each culture or tradition aside; neither does it take away from each race within their national home. Instead, working with one goal in mind, cohesively, and determinedly, **does this protect each national house within the CENTRAL ASEAN NATION OF THE WHOLE OR ONE BODY.**

Working diligently with one another, shall the **Filipino people**, with all their parts of the national body working cohesively, **rebuild their islands into the paradise it was in the beginning.**

In doing so, the **Filipino people** shall take back their resources out of the clasp of the capitalist world bank and its many tentacles of industry and corporations; **those industries and corporations who are out for their own "profit" utilizing such methods** as placing **"toll stations"** on highways and roads **making the Filipino people pay for "generations" over and over even when the cost of the highway and roads have been finally paid for, years before.**

1. HOW DO WE FEED THE PEOPLE?

How much food will your **Sectional Councils for the Purchase Order of Food** order so as to eliminate waste, especially in perishable goods?

2. THE PURCHASE ORDER

Initially, people will fill out a Purchase Order form and hand it into their specific **SECTIONAL COUNCIL** dealing with Purchase Orders for Food and Material supplies.

In order for the **SECTIONAL COUNCILS of Purchase Orders For Food**, to calculate the amount of products necessary to please the wants and needs of the people, they must first calculate that there shall be no over-ordering of goods and material supplies which shall **"ensure"** over-production will not lay waste in warehouses.

All foods shall be tested and approved by the SECTIONAL COUNCILS OF FOOD TESTING situated in Manila as the containers come in to dock.

When each family takes account of the food staples needed, they will fill out a form provided by their **Sectional Councils for the Purchase Order of Food**. **This order form** will then be submitted at the end of each month to their **Sectional Councils** for the Purchase Order of Food which shall then be transferred by their Sectional Councils for the Purchase Order of Food **into the data bank of the National Council in Manila** whose assisting Sectional Councils of the Purchase Order of Food shall then add up all the food types and where they can be located island wide.

The SECTIONAL COUNCILS for the Purchase Ordering of food, shall be many as will the warehouses. These **SECTIONAL COUNCILS for the Purchase Ordering of Food** shall first calculate in total for their (Villages, Towns, City Districts)

- a) which percentage of diverse foods are wanted or needed (no meat, eggs, nor dairy)
- b) what percentage are grains
- c) which type of grains are wanted or needed
- d) how many bags of soy beans for making cheeses, milk, meats such as pulled pork, beef, chicken, fish, shell-fish
- e) how much rice, locally grown
- f) how much rice will still need imported until the local farmers who are now in seasonal drought shall be awarded "**desalination plants**" for clean water and irrigation, which we shall speak about later in the "**prevention of drought**"
- g) the percentage of fruits, and which kind, and where they can be found locally, and if not available nor able to be grown in the Philippines, then such goods can be "**imported**" in trade for what can be provided by the Philippines, and the food "**imported**" can be traded in "**material goods**" to other nations should that be what they wish for or for vacation time on one of the Philippines beautiful beaches.
- h) vegetables, fresh and canned

It is important to remember, that once **this new Purchase Order** is made ready by each of the Sectional Councils for Purchase Order of "**Foods**," the Sectional Council of "**Foods**" will then transfer into the data bank of the National Council in Manila (who shall have many Sectional Councils assisting them), those Purchase Orders of Food which are not locally grown and which the Filipino families would enjoy.

The National Council in Manila shall electronically transfer those Purchase Orders to other National Councils within the **CENTRAL ASEAN NATION**, or other **CENTRAL NATIONS**, who will collect the "**food items**" and send over immediately those items which the Philippine nation is not able to provide for itself.

For instance, whichever nation the Philippines deals with in the form of material (Sectional Council for Purchase Ordering Materials) or food products, or labour in the

format of say:

a) teachers of architect, that nation will instantly be placed on the **Purchase Order and Trade with Philippines** for labour or importation (if necessary) food or material acquisitions

b) fruit and vegetables (grown in such quantity on the now dormant islands) will be collected to feed the **Filipino people first** with any excess used for **"exportation"** in trade for other goods.

When the Purchase Order shipments have arrived to the National Council of twenty-four in Manila, the shipments will be categorized and shipped directly to warehouses within each (Village, Town, or City District).

The people will then go to the **SECTIONAL COUNCILS** handling the **Purchase "allotment forms" who shall** hand out to each family their **Purchase Order Forms "of allotment"** of food per number of people per family, which each family or individual will take to various warehouse outlets and be allowed in to pick up their purchases.

There will be a till at the door, and as each family or individual passes through after picking up their food supplies from inside their closest warehouse, the worker at the till shall gather each **Purchase Order form and mark off that each family or individual had received their allotment of food products. No money will pass hands.**

For instance:

a) so many cans of fruit for drought season (which we shall speak of eliminating through the **process of desalination:** taking water from the ocean and making it into fresh drinking water and water for irrigation)

b) and so many bags of rice, per family or if single, and individual

c) so many lbs of vegan butter made from oils, or coconut. This will ensure everyone is well fed but not overfed. This will eliminate obesity. This will also ensure that children are fed in a healthy manner, however, fruit trees may be planted alongside paths so the people can partake of the fruit for snacks at any time.

There is no food which cannot be acquired but all will be distributed in a non-waste orderly manner.

It is important to note that every nation within the CENTRAL ASEAN NATION must NOT EXPORT nor IMPORT (and eliminating all tariffs and duty) any produce or product which their own nation is able to provide for their own people.

This eliminates waste and overstocking of warehouses.

In other words, **the Philippines** must **NEVER** export bananas for monetary gain when they have hungry people beating down the door.

There will be many **WAREHOUSES (not factories with long hard days)** set up where **Filipinos** can contribute so many hours a week, (for example: creating mats or basket making for tourists) for those with no job or talent to offer, in order to **"earn"** their **allotment of food**. During the rest of the hours in a day, those **Filipinos** will be expected to attend **"free"** educational facilities and vocational schools, or work as labourers in the Agricultural Sector.

A Purchase Order is in lieu of monetary finance of which monetary finance does no more than bring the nation to its knees and keep that nation subservient to the banking Capitalistic system of mortuary for the nation; for every nation, indeed.

However, as more nations transition their outmoded economic system of using currency, over to the **practical Original Talent and Purchase Order System**, the purchasing opportunity will grow and excel with **"no waste"** and **no "stockpiles"** as happened, for example, with the **Department of Health** and their imported vaccination drugs of which many are harmful to the **Filipino people**, for they spread disease in many cases.

When marketing any drug or new medicine, try it on yourself first or ones who are near to death at their own request.

The BLUEPRINT Philippines - PURCHASE ORDERS OF HOSPITALS, CLINICS AND LABORATORIES

The Sectional Council in Manila of twenty-four will be responsible for the **Purchase Orders into other Asean Nations**, and later into other **CENTRAL NATIONS** for goods or services which the Philippine nation and its peoples need or items wished for.

This shall be a monthly duty to collect on computer the Purchase Orders from the Sectional Councils, in this case the **Purchase Order Sectional Councils** of the (Villages, Towns, City Districts) of which there shall be many to eliminate backup and waiting time, where the people, themselves, hand in a list of their wants and needs, not

surpassing what is necessary in order to eliminate all waste.

1. HOSPITAL AND CLINIC AND SECTIONAL COUNCILS

Hospital, and Clinic Sectional Councils shall be many also to alleviate waiting time. This shall give jobs to all the practitioners who work overseas as **Offshore Workers**.

2. SECTIONAL COUNCILS FOR HOSPITAL WAREHOUSES

Sectional Councils for Hospital Warehouses shall likewise either provide from their laboratories or shall bring in medicine from the **CENTRAL ASEAN NATIONS** determining how much is needed **and only stockpiling those medicines and medicinal supplies, which are needed, on a six-month basis.**

Each Hospital shall be governed from their Sectional Council of Hospitals of twenty-four in order to guarantee the proper “administrative works” of each department of the hospital.

For Example:

- a) Sectional Council for the Laboratory department**
- b) Sectional Council for the X-Ray department**
- c) Sectional Council for Eye operations and so forth**

The rest shall fall in place as you repeat the process in Sectional Councils for the Oversight of Hospital Departments and Clinics.

Come with me to the far reaches of the universe and I will create for you a world which I will not have to leave.

The BLUEPRINT Philippines - AGRICULTURE AND HEALTH

1. DEPARTMENT OF AGRICULTURE AND HEALTH must work together, hand in hand.

a) **CONTINUITY** is the way to excellent planning and one which does **NOT** require money in order to bring about the good and effective results in transitioning from the present capitalist system to the "**Federalism**" system of economics.

The exception at this time under the present system shall be the desalination plants and their irrigation and piping systems, tractors and their equipment (of which monies can be written into existence with no loans to be paid back, and no usury on the debt)

b) **CONTRABAND** substances can be replaced with substances of good medicinal help to the people, grown and harvested under the control of both agricultural and health practitioners.

c) With **7500** islands the quantity and purity of food grown can be enormous, therein feeding an entire nation and more.

d) **EXPORTS** to other **CENTRAL NATIONS AFTER** the Filipinos have provided for themselves, will be without duty or tariffs of any kind, exhibiting straight trade for rice, and soy for tofu, for example, to another **ASEAN** nation within the **CENTRAL ASEAN NATION**.

e) **FARM MACHINERY** will be limited initially. Machinery costing the nation and the nation's peoples hundreds of thousands, millions or billions of pesos will not be needed due to the very fact that the labour force necessary can be found among the millions of Peoples inhabiting the Great Philippine Islands. When money is of no more concern, **MACHINERY** shall be made available without cost.

f) **TRACTORS** for seeding and harrowing the soil shall be needed along with other implements to make rows for the seeds. Seeds shall be given to the farmers by their Sectional Council of Agriculture and Health.

g) **PEOPLE** can manually plant the seeds.

h) **DESALINATION PLANTS** are critical. When the hot season is upon the land the irrigation should be in full swing so that the seeding can be done, cultivated and

harvested before the crops would have a chance to become flooded out in places where flooding occurs.

Gratis: This is ground roots to begin with for a nation to get upon its feet without an expenditure of hundreds of thousands, millions to billions of pesos.

i) The **LABOURERS** who seed, cultivate and harvest the food shall have shelters built by those who are the **BUILDERS**, and in return the builders shall have food produced by the labourers.

j) As the **PHILIPPINES** is tropical, shelters may be simply built with the resources of the many islands. We strongly suggest the dwellings pictured below of the houses with woks on the roofs for water supply, along with roof windmills or solar panels for electricity.

k) **FERRY BOATS** or barges can be used for transportation and waterwheels on boats can use the natural resource of water of which the oceans have plenty. **Why go into debt just to look good to the world when wisdom dictates that the logical and sensible move is to harness the labour force of the people in order to keep the resources within the nation instead of giving the resources and the labour force of the people to the corporate powers which feed the capitalist system of banking?**

l) **FERRY BOATS** or any boats used by the people for transportation should all be built with wide flattish bottoms and not be narrow boats which tip at the slightest provocation on the high seas. All boats should likewise be granted "**life-jackets**" by the **Sectional Council of Boating**.

2. LOGISTICS AND SENSIBILITIES

After all, how can the resources of the nation belonging to the people, be of the people and for the good of the people if the resources of the nation are given to the

corporations, and to the bankers? **Linger not and tarry not with the money of the bankers, for retinue is the active worth of ne'er the peoples but the charlatan of the day.**

In other words, dear Ones, how can the resources of the people and belonging to the nation remain with the people and remain with the nation if the resources are given to corporations and the bankers, who place "**usury**" on the resources and who give out large loans in order to cultivate those resources for themselves?

3. BUILDING CELLULAR STRUCTURE OF PRODUCE

While the Philippines continue to grow tiny produce, it takes twice the effort in harvesting the crop as it would take to harvest a crop of very large vegetables of which the islands in the northern regions of the Philippines, in particular, would be well suited for. This would feed many more people in the Philippines with healthy non-animal, non-seafood foods.

NON-MONSANTO NON-GMO yet "LARGE" produce can be created within the scientific and ingenious laboratories of the Great Islands of the Philippines. Sometimes however, you may need to modify certain vegetables to ensure a large crop. For instance:

Instead of a fist-sized cauliflower, make it a head-sized cauliflower. The same with long vegetables; grow them a foot long instead of four inches in length. This will feed many more people.

NO FOOD which is conspired or made to look younger than it is, is fit to be put onto the market.

4. PROTECTION OF THE ISLANDS

The islands need protection and security from those who would think and strive to impose themselves upon the hindering of the growing and cultivating of produce.

This is where the Coast Guards and Navy or Navies come into play. They must monitor the barges and ferryboats delivering resources needed by the people. For example:

a) supplies coming from other parts of the Philippines to enable the labourers to build simple yet fashionable living dwellings

Those navies of other lands within the **ASEAN CENTRAL NATION** who assist and who are assisting at the present hour the Filipino Navy and Coast Guard, this food grown in great and large quantities **shall also serve in feeding them as well.**

When leaderships put to use the resources of their own nation, the leaderships will find

little need for importation or exportation except for certain items or produce which cannot be homemade nor homegrown, **and of those needs or wants, the nation and its leaderships shall find that the “word” BUDGET shall well disappear, and no longer form as a BUDGET or LACK OF MONEY for building the nation “simultaneously” (all at one time) on all projects. No waiting for more cash flow or for next budget allowance the following year.**

To continue along the same path would be to budget the nation into erosion under the pretense of its being a gold mine to **foreign investments**. For the gold mine shall the investors build and charge the people for the building of it **a thousand times over with usury as its place mat.**

A generous heart knows the secret of the universe: There is more than enough for every one where the supply comes from. JS-R C

The BLUEPRINT Philippines - HOUSING, PARKS AND EDUCATIONAL FACILITIES

1. HOUSING

a) How to open up space.

b) How to organize over-crowded communities within (Villages, Towns, City Districts) into housing districts of interesting architecture with spaces for gardens.

c) How to relocate a number of residents to their own satisfaction and pleasure which shall bring about cooperation from the people.

Utilize your assets. **Your assets are your Islands.** Relocate families who work in a similar trade to the necessary number of islands. Allow them the **freedom** in building what they need and wish for, within reason, for their habitation.

If one family is a family of carpenters then relocate other families of the same trade in Carpentry from the (Village, Town, City District) **to an Island.** At the center of the island place a school of Carpentry where they may upgrade their talents which shall also allow them to instruct others in the **art of carpentry.**

This prototype shall go for any vocational trade.

These products created by **Carpenters** can then be traded throughout the islands, and

throughout the CENTRAL ASEAN NATION or foreign CENTRAL NATIONS for items which may be required or wanted. For instance, tourists would want for keepsakes items designed and created by the Carpenters. The tourists would ferry over to the island of Carpentry and perhaps purchase chairs, tables, and other items.

With certain families working in these and other trades, having been relocated to pleasant and close-by islands which may also house parks for the youngsters, **this will free up space in the (Villages, Towns, City Districts) where they had been originally housed in the overcrowded cities.**

Instead of bulldozing the large ancestral homes of the Filipinos with them in it for industrial space, these people should be **allowed to remain** in their large ancestral homes to grow their own gardens.

The open space shall ensure the youngsters have adequate playgrounds to walk their animals, to enjoy each other's company, and to allow the adults the opportunity for a stroll among trees and beautiful scented flowers.

In other words, "**organize**" the people who are the labourers, or have professions, into groups and place each genre upon designated islands.

This shall not apply to hospitals, clinics, or laboratory staff, of course, who work closely with the Medical establishment and must have their hospitals and clinics nationwide.

In this wise also, those who rarely have the opportunity to enjoy their homeland never having the occasional jaunt to the sea, would then ensure that the many Filipinos who could otherwise never afford to see in their lifetime the islands, **shall instead enjoy a life of greater excitement and opportunity.**

The great islands of the Philippines would become, **in tourism alone**, one of the most sought-after enjoyments through their visitation to the **Cultural Islands, under the Filipino's care and instruction.**

The tourists would enjoy each **School and Discipline of Achievement** as they travel from one island to the next gathering the handmade crafts of the Filipinos whose talents created them.

2. HOUSING ENTITLEMENTS

3. ENTITLEMENTS

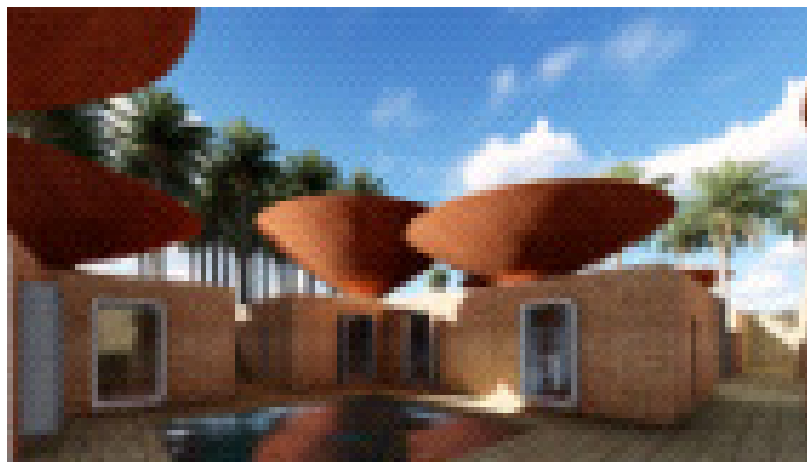

a) **Every family is entitled** to a plot of land to grow vegetables, trees and flowers and to build a house suitable for the size of their family. There will be no mansions nor castles.

b) Each family will attend a school to learn requirements for house size and **building code expectations**. These schools will be available within each (Village, Town, City District).

c) If a family is "**expecting**" or chooses to house their elderly, then the permit they are given will reflect the suitable size of the home.

d) Each family, will be permitted to choose the materials for their homes, such as marble floors, or hardwood floors. In return their own talents will be required by others.

We strongly suggest that the type of homes the people would choose would be adaptable to the climate, and support wok bowls on the roof of each dwelling for cooling and clean drinking and bathing water.

<https://returntonow.net/2019/06/22/bowl-shaped-roofs-collect-rainwater-and-cool-house/?fbclid=IwAR2p6h1ICkceKwVpe1LFGw6HPgcPCbQT8dr-Zlh2DXUaLWXO4CN9qoG1E0M>
<https://l.facebook.com/l.php?u=https%3A%2F%2Freturntonow.net%2F2019%2F06%2F22%2Fbowl-shaped-roofs-collect-rainwater-and-cool-house%2F%3Ffbclid%3DIwAR3WCXabFSXxp8kvbL17tmT_6g11SfYJNnmJUAAueoc72bhzwAmBPA4H88&h=AT0IHGmWBzyeOHoWFwr83tzGyEIMMq7NAH4pl_vmV-JQMntuEuz8o1cFIZiBUvi4bTunycA8GiufmLChoNmkHji3D6p7YrFNJQQOAcXgkhhblSK3alrbzf6OsXwwrQNiPXgTg>

e) Each home will be equipped with **solar panels** in their rooftops. **Rooftop windmills**, for example, would place each home into the power grid. The grid consists of all transmission lines supplying the peoples' electrical needs nationwide until such hour as the need for electrical cables has passed.

f) Farms will be also equipped with both and must provide heated accommodations or cooling **for their animals** during the hot and cold season which the latter shall be found in the northern regions of the Philippines.

g) Each home will have gun-safes. The key to this room will be held by the heads or head of the family, or eldest sibling no younger than sixteen years of age. Gun safety shall be taught to all adults before receiving their firearms, by the Security Panel of Police Officers.

h) In the event of an invasion of the (Village, Town or City District) they live in, **the Security Panels will sound an alarm** and the (Villages, Towns, City Districts) will immediately arm and wait for further instructions from the **Security Panel** who will continue to inform the (Villages, Towns, City Districts).

4. PLAYGROUND PARKS

After space is opened throughout the (Villages, Towns, City Districts) there shall be enough parks in designated areas for the peoples all to attend toward their own pleasure. Within these parks can small activities be addressed such as the arts in sculpturing, paintings, music, the creation of small carvings, along with many other instructions which shall enhance the education of the children and guide them toward understanding where their talents and interests actually lie as they enter into adulthood.

5. PARK FOLIAGE AND BUILDINGS

Instead of importing plants, design the parks carefully and beautifully with locally grown trees, bushes, and flowers. The people, through their own cultural talents may create designs on small park buildings which would house the unique school of arts, for small children, in particular. Singing instruction would be made available from those Filipinos who are gifted in that art. These teachers shall also be responsible for keeping the music within range with no reverberating annoyance throughout the neighbourhood, yet ready to entertain passerbys.

True education is derived not from the number of times you jump over an obstacle but from the number of times you stumble upon it. In each instance that you rise over it, you EVOLVE. - JS-R C

6. SCHOOLS AND UNIVERSITIES

7. MANSIONS AND PALACES PAID FOR BY THE PEOPLES

a) Mansions or palaces belonging to the Philippine Nation will serve as universities, hospitals, orphanages, emotional institutions handling those persons involved in some manner with the war on drugs or family abuse.

b) **The open schools** will train the people **freely in Federated Academics**. All universities, hospitals, schools, other academic institutions, will be free for the people to attend.

c) Each academic establishment within each (Village, Town, City District) shall teach this **"Federated" Blueprint for the Philippines to each of the Filipino people** no matter their status or age.

d) **A free copy shall be given to each member of each and every Filipino household**. Each person who can read will be responsible for learning its contents and **not breaking Universal Principles**. Those who are of an age to read but cannot read, but are of sound mind, shall learn through memorization the key principles of **"Federalism."**

e) The Filipino people **may freely** attend any schools of education, vocational schools of trades, and professional academics, suited to their qualifications.

f) Individual students will not need to compete with other students for grades and may work at their own pace, within reason, but remember, if a student would wish to become a leader of a **Sectional Council** or a member of a **Security Panel** of twelve, in some capacity,

a teacher, or an airline pilot, for example, then the student who takes one year to complete the course will be chosen over a student who takes six to ten years to complete the same course. **Quickness of mind in a decision must take precedence over a mind which is not that quick; many lives may depend upon that sound judgment and quickness of action.**

The song which sings the loudest is not necessarily coming from a bird of prey.

The BLUEPRINT Philippines - GYMS, VACATIONS and VEHICLES TO OWN

1. EXERCISE GYMS

Many exercise gyms will be placed within each (Village, Town, City District), however, because of much physical activity in the Filipino people working together in building the paradise within the Philippines (Federalism), these gyms are likely not to be used to any great degree.

2. VACATIONS INSIDE AND OUTSIDE OF THE PHILIPPINES

Each (Village, Town, City District) will sport many Sectional Vacation Councils in order to serve the people.

There is a difference between leisure time and a vacation.

Leisure time is the time you spend around your own home or little paradise whilst vacations are arranged for your pleasure inside and outside of the country in which one resides.

Travel, accommodations such as bed and breakfast establishments, hotels, motels; sightseeing are free. **However, there will be no interference in the designated country's system nor culture when traveling outside of the Philippines.**

Learn from one another in agreement of all "**positive**" aspects of life.

3. COST OF A VACATION

After so many hours of work, arrangements will be made for vacation.

For instance:

- a) if work is in a factory, so many hours must be accumulated
- b) or if you are an engineer so many hours at a project must be accumulated
- c) you must not stop in the middle of a project or workday, unless consensus is made between yourself and another to take your place
- d) for those who work from their homes and have only themselves to contract out to another, a certain number of accumulated hours must be drawn up. All these hours will then, at the finish of a job, be given to your nearest **Sectional Vacation Council** who

will then enter the hours in their (Village, Town, City District) central computer and those hours will then be accessed by your nearest **Sectional Vacation Council** when a request is made for vacation time

4. VEHICLES TO OWN

Vehicles are also free meaning no money passes hands. But the type of vehicle must be earned. For example: If a person wants a Mercedes, then the Automotive Dealer will browse the **Sectional Automotive Council's** central computer to find out if that person has earned enough hours on a job, and to what extent, in order to be credited such a prestigious vehicle.

If not enough hours have been earned, then the person will be credited with a vehicle of his or her current status. But a vehicle will be given as long as there are enough hours earned.

Animals are not your relatives; they are the ones you were to always care for. This includes all birds whether wild or domesticated, the sealife, and each and every crawling Being. The Hellions brought their animals, birds, and sealife to prey on and destroy the gentle animals, birds, and sealife, including certain crawling creatures of the Federation of Planets whose people first occupied this world.

The BLUEPRINT Philippines - PETS, Wild ANIMALS, BIRDS, SEALIFE AND CRAWLING BEINGS

1. PETS AND WILD ANIMALS

There should be no difference in treatment of pets vs wild animals as at the beginning of the seeding all animals were treated as pets and were in no wise carnivorous and neither were the HUmAn beings who were brought to this world, we call **Angorius**, by the **Federated Union of Starships**.

Due to the exceptionally poor treatment of animals globally, Sectional Councils for Pets and Wildlife needs to be put in place.

There will be hundreds if not thousands of these type of Sectional Councils.

2. PET AND WILDLIFE SECTIONAL COUNCILS

All people who house animals as pets must first acquire a “**free licence**” from the

Before this “**free licence**” can be acquired from **Sectional Councils for Pet and Wild Animals**, enlightened men, women, and children, or child, will first visit the home and ascertain whether or not the animal or animals in question shall be cared for on an

a) emotional level

b) physical level

Such animals will become an important part of the family with all their needs met in the same and exact way a HUMAN’s needs shall be expected to be met.

Feeding and housing alone is not enough for there must be emotional support and as much freedom given to the animals as possible.

In the case of fish, birds, any other sealife, or crawling things, no cages, fish tanks, nor tanks for lizards will be permitted.

In the case of wild animals, no zoo, nor cages, nor circuses shall be permitted.

Wild animals and other wildlife will be protected in such places on islands and surrounding areas.

No mammals or large fish shall be kept in tanks, such as dolphins and whales.

3.HABITATS

For the Philippines, the majority of the animals shall be placed upon islands where not one species placed with another species shall harm the other.

In the case of sealife, they shall also be protected in the rivers, lakes and oceans by the Coast Guard and Navy.

No fishing by hooks or crawling of nets; no spears, no harpoons, no clubbing to death shall be allowed.

There will be “**severe**” penalties for these cruel actions.

4. PET OWNERS

In the case of already being a pet owner, the same method will be applied in order to acquire a “**free licence.**”

Before this “**free licence**” can be acquired, enlightened men, women, and children, or child, will first visit the home and ascertain whether or not the animal or animals in question shall be or are being cared for on an:

a) emotional level

b) physical level

Such animals will become an important part of the family **with all their needs met in the same and exact way a HUMAN’s needs shall be expected to be met.**

If the standard of present pet owners does not meet the requirements of the **Sectional Council for Pet and Wildlife**, then “**PET FAMILIES**” will be given an opportunity through a special school **to receive the proper education necessary** in obtaining the “**free licence.**”

The Sectional Council for Pet and Wildlife will then do many follow-ups without notification.

5. FISH, WILD BIRDS, DOGS, CATS, HORSES, PIGS, COWS, CHICKENS

Should the animal which consists of fish, dolphins, exotic birds and the common species of such as dog, cat, horse, and so on, be found to be abused, the abuser shall be dealt with in the same manner as any abuser of people, and **THE ABUSER** will be immediately referred to a **People’s Justice Council** where the abuser shall be dealt with in perhaps facing expulsion from the (Village, Town, City District) he or she resides within and shall be placed upon the lesser “**Prison island**” where he or she shall be “**educated**” in proper conduct to look after animals and their counterparts.

Should the “**abuse**” be of such nature as to cause death to the animal, the abuser shall be placed on the “**Concrete-walled island**” with the rest of the **hard-core criminals.**

Animal abuse shall be dealt with severely because animals in all their different bodies are living Beings with the same and exact emotions, needs, and requirements as the HUMAN man or woman or child.

So those whom, are sadistically abusing their animals, birds (including chickens), fish and crawling beings (cooking alive or eating them alive) (octopuses, fish),

and after reading this or having been told by others of this part of The BLUEPRINT Philippines “Federalism,” such ones must STOP IMMEDIATELY THEIR ABUSE or face the consequences.

It is only necessary to work under a monetary system if there is no other available. Those who write off all debts of loans and collect no usury are not breaking Universal Principle and Higher Law known to all who traversed the planets until this one was made to be of such a nature as to be inhabitable. It was, in other words, "designed."

The BLUEPRINT Philippines - PETS AND WILDLIFE - EXCERPT - YEMEN

*(Notation: This Blueprint was given to YEMEN over ten long yet not so long years ago when sanity still reigned in Saudi Arabia and Yemen; and again we present it for the help-meet of the **Great Islands of these PHILIPPINES**. We uphold no religion yet when we speak of "Islam" we speak of PEACE, for those who walk in terror and not in PEACE among nations know nothing of Universal Principle and Law, and are not of us).*

1. FREE TRADE AND HOW IT REALLY WORKS

Sanaa, Dec 31, SPA -- Yemeni Prime Minister Abdul-Qadir Bajamal has received a \$ 1 million cheque from the Kingdom of Saudi Arabia.

The cheque constitutes the third installment of the \$3 million financial support being extended by the Kingdom to Yemen's de-mining program.

The cheque was handed over to Bajamal by Saudi ambassador to Yemen Mohammed bin Mirdas Al-Qahatani during a meeting here on Wednesday.

Speaking on the occasion, Bajamal highlighted the existing fraternal relations between the Kingdom and Yemen, and said the Kingdom is one of the major financer of numerous development programs in Yemen.

He noted that a ceremony will be organized in Aden on Saturday to mark the removal of the last mine in the Aden Governorate.

The mine fields will be turned into green areas and productive agricultural projects', he said. -SPA

Sisters, Brethren, that if you have not used the blueprint issued for the benefit of every citizen of every (Village, Town, City District) within every NATION, that you do so as a final and lasting accomplishment toward the safety standard of the Yemeni Aden.

*(Notation: Saudi Arabia had at that time under the authority of King Fahad, Crown Prince Abdullah, and the Sa'ana Bank owned by Prince Alaweed ibn Talal, instructed the Yemeni Government that should they not be able to pay back the money, **they would just kindly write it off and charge no usury, in order to not hold up the important progress in demining and rebuilding. In other words, there would be no end to the financial assistance which meant no budget.** - Uthrania Seila)*

2. WHERE MONEY REALLY BECOMES A LIABILITY!

WHERE A NATION IS PLACED UNDER A BUDGET, THAT NATION HANGS ONTO A LIABILITY KNOWN AS “MONEY” WHICH HOLDS BACK PROGRESS UNTIL THE NEXT INSTALLMENT.

People, it is not necessary to use the capitalist monetary system to accomplish such worthy goals. Find your best resources, Yemen, such as offering back to Saudi Arabia land for a conservatory for the Zoo animals, and Iraqi animals need placement as well and fed.

For instance, Southern Yemen has 27% meadows and 7% forest. You have only 1% land arable=fit for agricultural cultivation. Northern Yemen on the other hand is fixed with 14% arable=fit for agricultural cultivation, 36% meadows with 8% forestland. So if we put it all together we have a ratio of something more to work with here, than seeing families any longer feeling they need to sell their daughters into rich Saudi Households for wives or servants just to survive.

That is a day of the past and we would now like to see Yemen grow way beyond its own cash flow, because inside the Federation of Unified Nations operating on the Original Interstellar Economic System, no longer breaking any Universal Principle or Higher Laws:

- a) there can be no budget
- b) no lack of resources
- c) no crimes which are mainly attributed to the use of the capitalist monetary system
- d) and no more poor and hopeless feeling Yemeni

Now let us add up all of Yemenis' finest resources. We have 63% meadows, 15% forestland, and 15% arable land=fit for agriculture and now with the removal of the land mines in the Aden Governorate, the active land mass is gradually rising.

Now we have a land mass of 93% usable land throughout Southern as well as Northern Yemen. In addition to that Yemen has coastal regional waters.

Because Oman borders Yemen on one side, and because they are not self-sufficient in their own food production it would not be wise to cultivate a relationship based upon offering any of the Omani Zoo animals or domestic animals needing a special home where they could not find otherwise through the back-trading of items.

Instead, Yemenis can offer the Omanis a home for their Zoo animals and in exchange ask for a certain allotted amount of marble. You can also make your own cement for foundations, and begin to build your own paradise for those who wish their houses with marble structure or some on the flooring. This, of course, is just an example.

And you would need to build your homes in the culture of your people, with a solid foundation in order that all Yemenis will be safe from major earthquakes in Aden and in other regions. Never think you are not prone to earthquakes in your regions simply because you have had none before.

With all the active bombing and shelling going on by the Americans and British against Iraq and Afghanistan, the bombings are setting off shock waves throughout the major tectonic plates and that is also the reason why Turkey itself has had so many earthquakes in their own region.

When the giant earthquake in the western region of Turkey with the hidden three hundred top Israeli, British and U.S. Commanders on their own self-made base there was hit, and destroyed, every Commander and everything on the base, such news, if you remember, was kept to themselves and away from the west for months, and nobody understood exactly how such news could have been kept away from the public and so secret.

That is because the western media is owned.

Whatever Yemen needs in prospects of irrigation, for instance, Yemen is able to ask for assistance in acquiring irrigation pipes with saline inhibitors attached in return for ***fish** and an offer to yet another (Village, Town, City District) within a NATION to offer sanctuary of a paradisaical nature for exotic Zoo animal creatures and the tired and abused and sad ones.

(*since I wrote this portion we encourage trade in vegan foods and not live non-human Sentient Beings such as fish)

This is how it works and it has worked this way for eons **upon other worlds even less fortunate than this one.**

Why do we bring up an issue such as Yemenis building some of their structures of Marble?

Just to let Yemenis know that no matter what materials the people of Yemen decide they wish to build their own personal as well as collective paradise out of, nothing under the Original Interstellar Economic system, if you all work together **and follow the Blueprint we had given to each one of you earlier**, (in the example of agriculture in dealing between nations and peoples and Governments of Nations), **then you will accomplish a feat so great that Yemen will be turned into a paradise** and even the land will be turned into the greenest meadows for the **Greatest and Most Beautiful World Conservatory** for Middle Eastern Zoo Creatures, that the entire world will flock to Yemen just to see them and be taught at the same time how to care for their own animals at home.

Animals likened unto People do not want to be the subject of examination when they need to urinate or release dung. Watch intently some day soon, a smaller animal such as a dog or cat, and you will notice that these are sentient beings who have particular feelings just the same as you and I do about many of these things if not all.

Yemen may become the world conservatory zoo. With free running and flying and sea life *non-human Sentient Beings*.

Yemen may become also the world's largest animal hospital. Remember this conservatory is for the abandoned, abused and neglected animals, fowl and endangered amphibians and endangered species of fish, as well as some exotic creatures.

Yemen's mountainous regions, the flatlands, sea and lake areas provide home to all types of these sort of animals, fish and fowl and allow for hiking and boating for people who live within the global community.

People will come worldwide to study and be taught about all creatures.

A school will be erected to take students who wish to become animal doctors and conservationists.

Tourism will put Yemen on its feet as well as people visiting the ancient city.

Yemen will be a port of boating and glass bottomed boats will be afloat to show the people who sail on them the conservation sea-life.

Contributions to the conservatory will be another way Yemen will rise to the top.

People contributing supplies and talents to build the conservatory schools, to set paths, etc. These people contributing their talents will still put in their hours to their home Material Majlis' or Section Councils.

We hope, Yemeni, we have been of assistance to each one of you again, and we likewise thank the government and peoples of Yemen for their courage and strength in standing by Iraq so many years of the days gone by. Bless each and every one of You this day. Assalam.

Salu!

-Uthrania Seila Sentana-Ries of the Federation of All Unified Nations. 4:35 AM

(Excerpt complete. I have simplified the words in order that the Filipino peoples can better understand the excerpt of which portions not pertaining to the specifics, have I left out. Thank you.)

When one or two, or three or four, sit in the high council facing the door; the door shall open and what will they find, but flour on their doorstep and a pint of brine.

The BLUEPRINT Philippines - THE CONTROLLING FEW

1. THE CONTROLLING FEW

When one or two, or three or four, sit in the high council facing the door; the door shall open and what will they find, but flour on their doorstep and a pint of brine.

A FEW CONTROLLING ALL IS PRECISELY WHERE THE PEOPLE AND THE LEADERSHIPS LOSE THEIR OWN POWER OVER THEIR OWN LIVES AND THE PEOPLE LOSE OUT COMPLETELY.

The Enlightened Leadership of the **National Council in Manila** of the **PHILIPPINES**, for instance, are responsible for reporting back to the **Federation of Unified Planets through the telepathic leadership**. In this way there can be no behind the scenes wrong doing at all. Please remember that these telepathic enlightened men, women, or child, are all extremely highly evolved individuals working within **Universal Principle and Higher Law**.

A Happy Nation is a safe nation. It is important to avoid war and turmoil with not one religion bearing down upon the other. It is even more important that no religion exist to assist the banker in its wars by providing **“false cause” based on lies and deception as an excuse** to go to war.

How many wars have begun with the rallying cry of: **DO THIS FOR GOD ALMIGHTY!**

This is not atheism. This is just plain common sense, for the banker will pit one against

the other and the victor will be neither side.

When money becomes a thing of the past, all the woes of the earth shall be felled in one fell swoop. The animals, the geese, the birds of the flock will set their eyes northward while the bison and the oxen, the donkey and the ram, fish not for the little ones within the turmoil and swift currents of the waters, for peace shall once again reign upon the earth.

The BLUEPRINT Philippines - INFLATION

1. WHERE MONEY REALLY BECOMES A LIABILITY

WHERE A NATION IS PLACED UNDER A BUDGET, THAT NATION HANGS ONTO A LIABILITY KNOWN AS "MONEY" WHICH HOLDS BACK PROGRESS UNTIL THE NEXT INSTALLMENT.

The banker could not print up enough money to pay for all the remuneration in deaths they have created with their many religious factions to the billions of families throughout their lifestreams which have suffered insurmountable misery, loss, and hardship!

If one only determines for happiness for oneself only, then others are sure to be left out. *My soul hangs on a thread from a star in space waiting for eternity to pass their injunction.*

And taking all into consideration...

Forgive each other's debts and write the debts off saving each nation billions to trillions in your own home currencies.

This is precisely what the banks do for themselves, therein, nations doing the same is what brings a nation into its own independence. A conglomerate is a group of nations which work together for a single goal yet maintain their independence such as the **CENTRAL ASEAN NATION.**

P7.16 Trillion in debt for the Philippines is not only a horror story but totally unnecessary in light of **the Original Economic system of "Federalism"** operating within the **CENTRAL ASEAN NATION .**

For as long as you continue in using money in any of its formats as a method of

payment, you will only continue to uphold the violence of capitalism and the violence capitalism brings pitting one man or women's money against another for a power-base.

The moment you use currency in any of its formations (cash, cheques, credit cards, digital entries) **you fall outside of Universal Principle and Higher Law**, carrying instead the continuous momentum for upholding usury in all of its formats or configurations, as well.

This accumulated interest is what puts nations so far in debt above the principle requirement they can seldom ever pay it off.

Inflation is an act of usury and is designed to work the monetary system not only against itself but against the peoples.

Inflation will, in fact, ensure that the peoples somewhere along the line will fall through the cracks of consumption.

Now, let us again look at how inflation is falsely created and what keeps it in operation.

2. AN EXCERPT FROM THE BLUEPRINT OF PARADISAICAL ECONOMICS AND SOCIETAL STRUCTURE FOR IRAQ:

Under the present system, this people suffering, people hating, monetary system, the hospital would look like this and be paid for through low wages, of reba or pesos (or whichever currency one uses), more than four times by the people.

Here is how it works.

a) the contractors **borrow money from the banker or take loans out from several banks** then amalgamate their debt load into one massive tribulation upon the people of the nation.

b) then the contractors **hire people** to build the hospital.

c) the hospital will be built solidly **but yet in as an inexpensive way as possible** in order for the contracting company or companies to make as much profit as possible.

d) next come the workers **who are paid as low a salary** as the contractor can possibly get away with.

That is the first installment **which is the borrowing aspect** from the Continental Banks.

Continental Banks are the banks on the continent where each person resides. These Continental Banks are also “**offshore**” banking facilities where monies is hidden so as to not be traced nor charged with “**usury.**”

3. OFFSHORE PROVIDENTIAL

Offshore providential is the guardianship of the offshore bank accounts.

4. HOSPITAL

Then when the hospital, dull as it looks, is fully completed, the banker wants paid back.

This is the second installment.

So both the contractor and the workers **must take on another job** just to pay back to the banker the loan and interest (usury) of the first job.

When the first job (of building the hospital) is paid back in all expenses of the borrowing costs, **then the city tells the people that they must now pay fees in order to use the communal building**, in this case hospital fees, or if it is a library, then library fees, or if it is a museum, then fees for the people to go in and look at the museum.

This is but an example.

This is the third installment.

Then the people are told after they built the hospital, paid the banker back and paid the fees to attend the facility, **that they must now pay land taxes, upkeep taxes of the building**, and while the people are paying all these extra usury out of their meagre wages, they are having to pay back the money to the banker for the first costs of yet another loan for yet another building with usury.

Remember, now, the banks write the “**loans**” into existence which costs the banking industry nothing. However, they collect the loans back regardless, and where they make their real money is not on the principle which is held over the people to keep them in debt - **but the “usury” on the principle.**

For as the loans hang over the heads of the people, the land and hospital **do not belong to the people** for they are used as collateral to the banks.

Just like taxes, the internal revenue collects “**usury**” **which is an illegal act.**

This is the fourth installment.

In addition to this, of course, the people are told that it will be several years until just so

many budgeted contracts are able to be manifested for the people by **the Senate, Parliament, or Congress, for the bankers have put them on a budget.**

This is the fifth coming into play.

Borrowed monies for the hospital over a twenty-five-year term, cost the taxpayer ten times its original value by the time the hospital is paid for.

This is the present system you operate under fully today.

What we offer is not made in hell.

But in heaven or the heavens, or rather to be more precise, upon other worlds, other planets, who have learned that the money system corrupts the best of men and women, at times, and therein should never be used as a trading currency, for with the currency comes the infraction or violation of breaking all Universal Principles and Higher Laws; a violation which brings along with it the banking usury.

It does not take three years to restore all power and electricity to Iraq, for instance, having been bombed almost out of existence. That is ridiculous!

Only under the present hegemonic imperialist economic budgeted system would that be a priority to wait that long for full power nationwide.

‘Likewise, does it also not take years to restore the Philippines to its highest peak or acclaim unless, of course, a budget is used; then shall it never happen.

Differential rates of expenditure only complicate the process of monetary elimination toward the worth and good of the peoples concerned - those ones who be of the nation.

The BLUEPRINT Philippines - AUTONOMOUS REGIONS OF THE PHILIPPINES

1. ELIMINATING DISSENSION (Full Content)

2. FLAGS - OPTIONAL

Each (Village, Town, or City District) MAY have its own sovereign flag to represent itself within the NATION of the Philippines and to raise such flag "beside" the Philippine National Flag.

3. RESOURCES

No (Village, Town, City Districts) will be the sole source of their own natural resources of wealth. The needs of each (Village, Town, City District) shall be provided for through their own labour as well as any mineral or natural resource.

No taxes will ever be collected and no money shall pass hands.

4. THE BODY OF THE PHILIPPINES

a) **The Philippines is like a body** with the NATIONAL COUNCIL of Twenty-Four Enlightened Men, Women, or Special Child or Children being the Head (or BRAIN);

b) **The BODY has hands, legs, feet, arms, toes, fingers, eyes, ears** which are the Sectional Councils, Security Panels and People's Justice Councils;

c) **and the many organs** which are the (Villages, Towns and City Districts) consisting of all the rest of the people;

are placed as ONE, protecting and being protected within the whole skin by the people, being made up of the peoples, themselves, for WHAT YOU LOVE YOU PROTECT!

This, as we have said, will form a different sort of autonomous region, each with their own culture base and ethnic qualities which they wish to keep to the fore, protected and beautiful.

The culture to be kept protected will not include anything which lies outside Universal Principle and Higher Law of both morals and ethics. Many cultures espouse certain ethnic anti-Universal behaviors which belong in the garbage bin.

5. WITH CONCERN TO AN INVASION

Should an invasion occur the ENTIRE CENTRAL ASEAN NATION will be immediately called upon by the NATIONAL CENTRAL COUNCIL IN MANILA.

Each (Village, Town, City District) must then have their own small military, voluntary, to add or attribute to the whole. These shall be overseen by (Village, Town, City District) Security Panels of twelve.

The methodology of the Swiss military system will be best suited. They have their weapon caches in mountainsides. Every family is armed to the teeth to rise up at any time and protect the country from invaders.

In the Philippines, for example, all regions will be protected by mountainous, oceanic, plains, or otherwise, using the same strategic employment including all Sectional Councils, Security Panels, People's Justice Councils, including the peoples,

themselves, from the highlands to the lowlands, from the coastal waters to the mountains.

We will remind you that should any man, woman or child turn upon their neighbour with weapons, instead of taking the neighbourly matter to the People's Justice Council in their (Village, Town, City District), they will be immediately taken before the People's Justice Council of Enlightened Leaders of Twenty-Four in MANILA and dealt with severely.

Should there be an exceptional problem, the **NATIONAL COUNCIL** situated in **MANILA** will contact the **CENTRAL ASEAN NATION** and report the situation.

This is why "telepathy" is such an important conduit of communication. The Federation of Free Planets, as well, are there to advise as to the immediate concern and application.

We have "repeated" again and shall "repeat" as often as we feel necessary the practice of land invasion into the Philippines by forces outside of the CENTRAL ASEAN NATION.

It is often tongue-in-the-cheek theory which determines whether a nation is a captive to another nation and that criteria simply states what is your is mine and what is mine is also yours, so we agree to work in the ONENESS of all contributions, One to the other. An invasion, therefore suggests only one side takes it all.

The BLUEPRINT Philippines - IN THE CASE OF AN INVASION

1. WITH CONCERN TOWARD AN INVASION

Should an invasion occur, the ENTIRE CENTRAL ASEAN NATION will be immediately called upon by the NATIONAL COUNCIL of Enlightened Telepathic Leadership of the ASEAN NATION OF THE PHILIPPINES.

2. SECURITY PANEL AND ITS OVERSIGHT

The Enlightened Telepathic Leadership of the NATIONAL COUNCIL of the PHILIPPINES will then contact the SECURITY PANEL of twenty-four who in turn shall give the Security Panels of twelve within each (Village, Town, City District) coded alarms which in turn shall give to all the people in the (Villages, Towns, City Districts)

the command to raise up and hold off, the invaders, until more troops arrive from the CENTRAL ASEAN NATION.

The reason why the CENTRAL ASEAN NATION is contacted before the **SECURITY PANEL OF twenty-four in MANILA** is to give the CENTRAL ASEAN NATION more time to gather its troops to come to the aid of the ASEAN NATION OF THE PHILIPPINES.

All invaders will be removed to a far away island. Depending upon the nature of their crime their placement will be determined by the **CENTRAL ASEAN NATION COUNCIL**.

Each (Village, Town, City District) will protect the **NATION OF THE PHILIPPINES**, giving the NATIONAL COUNCIL Enlightened Leadership of twenty-four a relaxing atmosphere to work **ALONGSIDE AND NOT OVER** the participating and protecting smaller (Villages, Towns, City Districts) within the **PHILIPPINES**.

All SECTIONAL COUNCILS AND SECURITY PANELS of the (Villages, Towns, City Districts), MUST work in the Oneness with the people.

Each (Village, Town, City District) will protect the **NATIONAL COUNCIL OF Twenty-Four Enlightened Telepathic Leaders in MANILA by keeping their eyes and ears open and working in a thorough and concerted effort, all weapons ready at all times, should the need arise.**

If one ASEAN NATION INVADES ANOTHER THAT NATION SHALL IMMEDIATELY BE PUT OUT OF THE CENTRAL ASEAN NATION AND NOT ALLOWED TO DEAL ALONG THE SILK ROAD IN TRADE WITH THE CENTRAL ASEAN NATION NOR ANY OTHER CENTRAL NATION.

If any leader commands his/her troops to invade another nation it is better if those troops REFUSE to pick up arms or their nation will not be any longer able to trade with others.

Each home will have gun safes. The key to this room will be held by the heads or head if there is only one parent, or eldest sibling no younger than sixteen years of age, of the family. In the event of an invasion, the (Village, Town, City District) they live in, will sound an alarm and the (Villages, Towns, City Districts) will immediately arm and wait for further coded instructions from their nearest Security Panel who will continue to inform the (Villages, Towns, City Districts) each person lives within.

This type of autonomy as we speak on will give to each distinct (Village, Town, City District) of the PHILIPPINES more power within each (Village, Town, City District); in fact, more power than if they were smaller nations of their own separated from the NATION of the PHILIPPINES.

Remember, this will strengthen the PHILIPPINES, not weaken it. This will

strengthen tribal regions eliminating dissension.

THIS WILL “PROTECT” the PHILIPPINES FROM DRUG RUNNING AND DRUG DEALING, AND FROM INVASIONS BY FOREIGN POWERS OUTSIDE OF THE CENTRAL ASEAN NATION.

You will see what we mean shortly.

The responsibility will be greater.

a) every (Village, Town, City District) will be set up in the same and exact format as the NATIONAL COUNCIL, SECTIONAL COUNCILS, AND SECURITY PANELS.

b) all business will be conducted through talents, needs, and access to trade deals with other nations within the CENTRAL ASEAN NATION and later on other CENTRAL NATIONS.

c) This will be based solely upon the Original Interstellar Economic, People Friendly system, which the BLUEPRINT of the PHILIPPINES is based upon, allowing no more abuse of ANY (Village, Town, City District) for economic abuse shall no longer be possible.

d) abuse of any system is only possible, people, when you have dissenting electorate bodies who will break every law and principle in the book and steal money from the peoples of the NATION, these same people steal in order to gain the most votes from a duped electorate, and set their podium for their own self-made credibility.

e) without elections there can be no such abuse of the system and only Enlightened Ones will acquire the Enlightened Positions. It is mandatory that those occupying important positions in SECTIONAL COUNCILS and on SECURITY PANELS be trained, be hospitable, be honest, be ethical and moral toward human and non-humans alike.

f) the NATIONAL COUNCIL IN MANILA OF THE TOP TWENTY-FOUR should be able to CONVERSE FIRST WITH THE STARSHIP COMMANDERS TELEPATHICALLY FROM OTHER WORLDS. FOR THOSE WHO CANNOT EVEN DO THAT MUST REALIZE THAT THEY ARE NOT AT THE TOP LEADERSHIP LEVEL FOR GUIDING A NATION, NOR THEIR PEOPLES.

If you cannot find twenty-four telepathic people then have less BUT you must then have of the twenty-four the highest minds which work in the ONENESS in order to assist in guiding the nation.

g) in the absence of the present-day capitalist economic system there can be no corruption from that front either.

h) children, whose minds have not as yet been altered, may, if talented in word, speech, and deed, become included within the Twenty-Four of the **NATIONAL COUNCIL OF MANILA**.

When reckless spending suffers the nation into further debt to enhance the pockets of others, then by which charlatan does he or she add to the pot the grace which belongs all to the People?

The BLUEPRINT Philippines - PRISON SYSTEM

1. RESOURCES - HUMAN - LABOUR: EDUCATION AND JOB PLACEMENT

It is necessary to not only put your effort as a nation into the next generation, it is also necessary to **“reclaim”** those of the present and previous generations **if their crimes are not ones of great tendency toward the premeditated harm of others.**

We proceed with the prison system which is a heavy concern in the Philippines at this time. May nightfall not come upon them all.

2. PRISON SYSTEM - ISLAND PLACEMENT

As we have formerly stated, we need a number of islands to be sectioned off and protected by the **Navy and Coast Guards**; the inmates who have **volunteered** or **“not volunteered” to become rehabilitated** will have the necessary **methods available to them for full recovery and to learn a trade.**

For those who do NOT wish to be rehabilitated there is always another choice and that choice is the cement-walled prison, called “THE HOME” where hard core criminals are imprisoned.

“THE HOME” is a great deterrent to crime.

On the **“Prison island”** the inmates shall have at their disposal:

- a) surfing
- b) swimming
- c) basketball
- d) ping-pong tables

- e) races around the island for the building up of endurance which also tones the mind
- f) short sprints
- g) art classes
- h) instrumental music classes. All instruments shall be provided
- i) culinary arts
- j) and a limited choice of learning a trade

3. INSTRUCTORS

Those with musical ability, artists, or culinary arts may also become the instructors; **heavy addicts** would be placed upon another island but be ferried to the lesser addicted inmates to hold classes **on why drugs and their effects are so dangerous to themselves and the disastrous effect drugs have upon their families and the families of those they sold drugs to.**

Therein, the hard addicts would have the opportunity to council the inmates of the "Prison Island."

Instructors may allow the inmates to view, on video as well, **exactly how their actions hurt their families, themselves and others while they were dealing or using.**

4. SMALL TIME DRUG DEALERS AND ADDICTS

The drug dealers and drug addicts on the "Prison Island" are NOT hard core but because of their poverty situation, they involved themselves, voluntarily or non-voluntarily to market on a small scale, drugs or became addicted themselves.

Many of these inmates are young people.

When they arrive on "Prison Island" the inmates shall assist and be trained in the art of building their own accommodations.

This may consist of:

- a) a large common room for bedding down at night**
- b) toilet facilities outside of the common room**
- c) beautifying the building with artistic talent such as drawing and painting**
- d) learning the art of gardening in order to beautify the surroundings**

This shall give the inmates of "Prison Island" another way of life which is more

pleasing to work toward

Family and friends shall be permitted to visit on set scheduled times set by the Security Panel of Prison Islands.

One of the main objectives is to provide councillors who have been themselves, through the prison system and cleaned up of drugs, alcohol or small-time dealing in drugs.

There is no better Councillor than those who have been there and KNOW what the inmates of "Prison Island" are going through in overcoming their addictions and turning away from crime.

The great question the inmates all have will be: **“What happens after rehab?”**

A very good question because should the system remain the same, these same people will only face a reintroduction back into the drug trade as small-time pushers or users if there is no mechanism in place providing them with an opportunity and challenge to excel in a pleasurable and fulfilling life.

And why is this? Because they would again be "TARGETS" for hard-core, ruthless drug dealers.

Those who are likewise addicted to alcohol may also be referred to a **"Alcohol Rehabilitation Island"** for their addictions lead to massive abuse of their own person as well as family and friends.

This island can be set up in much the same manner as **“Prison Island.”**

Alcohol is a drug and all hard liquor, in particular, oftentimes sees the addict in situations in which **"jail"** for crimes is also the result.

These inmates on the "Prison Island" must, when they are "rehabilitated," have completed a trade to enable them to build and create for themselves and the society around them, a life where they leave criminality behind.

The inmates of the **"Prison Island"** will integrate again into society, **but a society where the monetary system cannot hold power over their lives any longer.**

A "Federated" system where threats against themselves and their families can no longer exist "must" take the place of the Capitalist system of criminality against the people, keeping them poor, and always in need of money, even when there are no jobs.

So, you see, there are "plenty" of jobs for the Filipinos who otherwise would not have any occupation.

There is nothing for the inmates more frightening than going to jail, facing more horror there, and then knowing they will face the same injury and worse right back out in the streets where they face a bullet in return for their good faith that "Federalism" was going to be their light at the end of a long and horrible tunnel.

In order to counter crookery, one must first engage in the correct system with which to prevent it. Masterful planning is not only the solution of the trade but the very heart or core of national excellence.

The BLUEPRINT Philippines - THE SAFEGUARD AGAINST ALL CRIME

1. PEOPLE'S JUSTICE COUNCIL OF TWENTY-FOUR IN MANILA

will handle issues of murder, rape, syndicate drug lords, and plunder of all manners. This Enlightened Leadership of Twenty-Four are in communication telepathically with Enlightened Starship personelle and Beings from Higher Evolved Worlds and are the last People's Justice Council before the Security Panel of Twenty-Four Military are called to remove the **"guilty accused"** to what we call the **"NEW HOME."**

2. KEEPING THE PUBLIC SAFE

For those who say to us: **"then how do we keep the People, Groups and others honest in order that they do not cheat one another or that leaderships do not cheat one nor plunder the nation, do not cheat one another?"**

We say to you, that the Federation of Unified Nations have a safeguard built in.

What happens here is that the moment one cheats another by, for example, not

delivering their part of the Purchase Order or bargain, such as delivering items, after they have received what they had Purchased; or people who exchange their talents or labour and do not deliver their part of the bargain on the Purchase Order from their (Village, Town, City District) **the moment that Word gets out, these certain people shall be automatically boycotted by people on all levels.**

By this we mean from the grassroots up:

- 1) their neighbours
- 2) stores
- 3) Sectional Councils
 - a) of employment rights
 - b) postal service
 - c) food outlets
 - d) vacations
 - e) transportation
 - f) electricity (not water)
- d) many other Sectional Councils for public service

This boycott will also apply to fighting or framing another for any reason. These crimes shall be dealt with immediately by the **People's Justice Council**. These will also be considered "**dangerous acts**" against your neighbours, whether be family members or not.

The length of boycott will be determined by the severity of the act of cheating and other minor criminal events.

The Enlightened Leader of the People's Justice Council will determine the boycott's effect upon the person or people in deciding the length of its duration.

The Universal Principle of Higher Law shall be upheld and simple to understand with no amendments, clauses, nor long oratory as had been designed by those profiteering lawyers and judges of the past.

This simple principle will be remembered by all who think to break Universal Principle of Higher Law:

The spider who weaves a web to trap another will inevitably be ensnared in a web of its own making.

Should a dispute be serious enough, such as *murder, rape, blackmail, running drugs by syndicate drug lords, or plunder in any of its forms*, the **Security Panel of Police** shall refer the accused directly to the **People's Justice Council** of the (Village, Town, City District) who will immediately take this problem to the People's Justice Council of twenty-four in Manila who will **"advise"** as to the immediate concern and application which shall be taken. **All is handled swiftly and without delay of court appearances as they stand today.**

The guilty offenders will be removed by the **People's Justice Council in Manila of twenty-four** and turned immediately over to the **Security Military Panel of twenty-four** who shall transport to a designated and segregated island protected by **the Coast Guards and Navy of the Philippines** and coexisting nearby ASEAN NATION's Navies and Coast Guards, *for their hard-core guilty offenders* may be housed in **"THE HOME"** also with others more **"attuned"** to their nature.

3. THE NATURE OF THE "NEW HOME"

The island shall contain a great cement wall, impenetrable, and too high for the "guilty accused" to see past its walls.

a) the prisoners shall lie on the ground without mattress, cloths, leaves, moss, nor branches for beds.

b) the prisoners shall eat rice from a long trough. No other food supplements shall be

available.

c) clean water shall be supplied to keep disease at bay. This water shall be caught in large wok bowls on the cement walls released into troughs through drain pipes. From this shall the prisoners drink.

d) there shall, however, be provided open air bathrooms rather than to fecetate upon the ground by prisoners, to curb disease which could if airborne spread to the main islands of the Philippines

d) there shall be no recreation in any form

e) if the prisoners murder each other there will be no funeral and no graves. The cadavers will be thrown to the sharks.

It is to be noted that this island is more of a deterrent to crime than the death penalty which the accused guilty believe to be a way out of their situation. They could not be more in error, for lessons shall need be learned in future lifestreams, many of them, not pleasant. Upon the "island" of prisoners, they have much time to "think" about their heinous crimes until their demise.

This "island" is NOT for social offenders or those unfortunate ones who become caught up in drugs as users or forced dealers. The Blueprints belonging to the Federation of Free Planets as practiced upon many other worlds also have within the Blueprint for the Philippines a type of PRISON SYSTEM which differs greatly from the CONCRETE ISLAND "HOME" for murderers, rapists, and plunderers of all manner of crime.

4. SAFEGUARD AGAINST FALSE ACCUSATIONS

False accusations are a "dangerous" move.

If a man, woman or child accuses another falsely, then that "punishment" will fall upon the shoulders of the accused. This means if one falsely accuses another of

serious crimes, for example, that accuser shall be the one to take the place of the accused; and that may be AMONG THE MURDERERS, BLACKMAILERS, SYNDICATE DRUG LORDS AND PLUNDERERS OF ANY FORM in "THE HOME."

Should any of the People's Justice Council Judges **"falsely condemn a prisoner"** they shall take the place of the prisoner. **Without the monetary system this is very unlikely to happen.**

So, you see it does not pay to be a cheat. **The Federation of Unified and Free Planetary Worlds'** economic system of Talent and Purchase Orders keep the People from engaging in criminal activities of any kind.

When one cheats another, cheating leads to stealing, stealing leads to grande theft, grand theft often leads to blackmail, graft, pork-barreling as well as other types of plunder of the people's money or goods: gambling houses where in its many forms ensure the majority of the people lose their wages. Illegal Wildlife trade. When a drop of rain falls, it may beget itself eventually into an ocean and drown all of the people. **Cheating brings about a cycle of other criminal tendencies.**

However, remember, that when the monetary system is gone, few people shall feel the need to cheat others out of their belongings. The "incentive" will be gone.

We employ different types of Sectional Councils of **Enlightened** men and women not forsaking the child in genius form, therein are many empty chairs to be filled which will in many ways surpass the chairs of the Senate, as it stands, and that of Congress put together.

It is not to say that among the Senators and Congress there are not honest, hard-working, ethical, compassionate, and brilliant men and women, however, many are not and money gain has tempted and tried them at their worst.

We shall address the qualifications of Leadership upon our next presentation of **"Federalism" the Blueprint to the Philippines.**

What you give to others in good will shall always be your fortune in another way. It is the best choice to always wish for one's brother or sister what one wishes for oneself, for happiness and contentment can never come in its fullness without the faces around one also emanating happiness and contentment, and of this do we strive for the good of every HUman being upon this world.

The BLUEPRINT Philippines - THE INTRODUCTION TO BUILDING THE CENTRAL ASEAN NATION

When then we have many NATIONS participating, this is the time we build the **CENTRAL ASEAN NATION**. For example: Japan, China, Singapore, Thailand, Korea (being as ONE), Vietnam, Malaysia, the Philippines, of which each NATION is protected internally by their (Villages, Towns, City Districts).

Likewise, are each NATION within the CENTRAL ASEAN NATION **now protected by one another**.

1. JOINING AT THE HIP

a) the Philippines and China will join at the hip

b) Japan and Korea (Korea being as One entity) will also join at the hip

c) the Philippines, Singapore, Malaysia and Thailand will also join at the hip

until each Asean Nation will be joined at the hip with one another, no matter who resides beside who.

In this way the **trade barriers come down** to an even fuller extent and that is **what we mean by the borders come down, yet EACH ASEAN NATION RETAINS ITS INDEPENDENCE**.

At this point the present monetary capitalist entity has completely lost its entire powerbase and the people will be returned to a system of equalization and contentment.

With the capitalist system such ones love to place their own brand of people in leadership positions whom as marionettes will “lead,” inasfar as protecting the capitalist system base against the people.

This is why many men and women in leadership positions **“protect”** one another's financial interests.

People, the capitalist banking system went after the nations of the Federation of Unified NATIONS of the MIDDLE EAST so that there would be nothing left to recover to, and now they are in SOUTH AMERICA, AFRICA, SATELLITE STATES, RUSSIA AND EUROPE to see to their demise as well.

The rectifying of this is simple but the European Oligarchy of the European Union when approached by ourselves would not listen.

They only listen to the banks, who pay their large esteemed wages with the number of perks unheard of.

Let us hope they will begin to listen now.

2. THE PROFIT OF WAR

Making war is profit and sky high will the oil and gas prices reveal themselves.

At that point will the war machines screech to a halt and the collapse of the parasitical capitalist machine occur for noone will pick up arms, drive tanks, pilot warplanes, guide missiles, pilot war submarines for everyone will want to build paradise.

Then will the real freedom of the people come. Not through war but through peace. All weapons will be forced from their hand and once again will the abundance of the

land be reinstated back into society, becoming once again reintegrated as part of the whole.

Remember this, people, it is written that many of us “**walk among the living dead.**” This demonstrates that in the time nearest the new beginning, the same generations would come back to walk this earth. Those living upon this earth in their bodily cases are called the “**living.**”

Those “living” yet considered “**deceased**” whether over long centuries of time or the short present, who have since reincarnated upon this same earthen plane, are the “**living dead.**”

So all will be privy to choose which side they are on - the system born upon paradisaical worlds or planets of which system you call as being **Heaven** or the system born in the Hellion worlds or planets of which system and actions you call **Hell**.

Which shall you vie for: the capitalist system of economics and their societal structure, or the paradisaical system of economics and our societal structure? After all, it is your choice, each and every one.

THE PARASITICAL OR PARADISAICAL SYSTEM OF ECONOMICS. ONE IS SLAVERY; ONE IS TRUE FREEDOM.

*When the hour comes to put the hatchet away, the money system with all of its gain for a few of the populace, shall begin to wain, until “**Federalism**” takes the coinage out of the game.*

The BLUEPRINT Philippines - UNCONDITIONAL ACCESS TO RESOURCES

1. RESOURCES WITHIN THE CENTRAL ASEAN NATION

In addressing all resources available everywhere within the **CENTRAL ASEAN NATION**, view the earth as though it were a village.

Initially, each of the **ASEAN NATIONS** must learn to work again with one another under the system of "**Federalism**" before dealing with other **CENTRAL NATIONS** of the world.

Other nations need form their own CENTRAL NATION operating on the same principles of resources and trade as the CENTRAL ASEAN NATION.

This shall keep resources within each nation and eliminate so much over-purchasing of goods.

No more huge stockpiles and no more waste.

The only goods needed to be imported will be those goods which cannot be found nor manufactured nor grown in each nation within a **CENTRAL NATION**.

This shall do away with competition, trade wars, and the tariffs, duties, and excise taxes.

With no money passing hands, the incentive for crimes in these areas shall be eliminated.

For instance, **Customs** shall have only one duty and that is to check the imports and exports are all in order.

2. THE RIGHTS OF A NATION TO ITS RESOURCES

Meaning right of access to basic essentials to survival. **For example:**

- a) transportation, public or private
- b) food (with no waste)
- c) houses
- d) land
- e) clothing
- f) vocation and trade schools
- g) universities
- h) hospitals and clinics
- i) vacations
- j) gyms
- k) fruit trees, flowers, shrubs

l) petroleum products

These rights include the obligation for each person to contribute to the overall well-being of society by:

a) **being willing to become educated** in schools and universities teaching basic and higher learning within universal principle of moral and ethical achievement;

b) **being willing to provide labour** in industry or business, or personal agreements when needed;

c) **being reliable** alternating between work and leisure time. In this case, the person will not be asked to commence with any work or duties which **he or she finds distasteful**.

Happiness goes hand in hand with rebuilding your paradise. Each person should "enjoy "the work they do. A happy nation is a secure nation.

In this way work cannot become a stressful event for the people of these Philippines.

3. THE CONTENTMENT OF A NATION

Now the next point we will explain, and to the contentment of every group inside of the Philippines, will we now proceed to address. **Each ethnic majority as well as minority will work upon these rules and principles:**

a) the Philippines must have an indigenous enlightened leadership of twenty-four equal men and women or child included within the twenty-four. **They must be telepathic. This shall be called the NATIONAL COUNCIL.**

b) The **PEOPLE'S JUSTICE COUNCIL** of twenty-four equal men, women or child included within the twenty-four must also be **telepathic**, as well, for they shall at times need **further and immediate guidance**.

c) **No titles will be used, such as:**

d) president

e) vice president

f) prime minister

g) congressmen, congresswomen

h) senators

i) house speakers

j) emperor

- k) excellencies
- l) king
- m) queen
- n) or any other royal title

This National Council and People's Justice Council Leadership of twenty-four will reside in MANILA.

a) Each (Village, Town or City) within the Philippines will have leaderships of like-mindedness, working in the Oneness, **otherwise they become ineffective and fragment the group such as in a democracy.**

Keep in mind that each city will have districts, so each district will have their own councils of twelve enlightened men and women, and child if of genius status and of sufficient maturity. For instance:

- b) **Karuhatan** being one district within a city: **“Valenzuela”**
- c) **Quezon** City with its districts being another
- d) **Baguio** City with its districts being another
- e) **Davao** City with its districts being another

These men and women, or child will also sit in council in a building made for this purpose; a pretty building done in the cultural arts.

This will result in an entirely different type of autonomy.

In the same way that the **Security Panels and Sectional Councils** are set up in the capital city of Manila, so shall the (Villages, Towns, City Districts) follow the same and exact format.

This outlay will strengthen the PHILIPPINES, not weaken it. This will strengthen tribal regions eliminating dissension.

The spendthrift is an inarticulate Being, whom, with the foresight of a positron brain thinks of neither him nor herself as evolving past the dollar, ruble, coinage of Greece, and the antiquity of Rome, itself.

The BLUEPRINT Philippines - INTRODUCTION TO BUILDING THE CENTRAL UNIFIED NATION

1. IN BUILDING THE CENTRAL UNIFIED NATION

These are the examples and these are the enjoining of the NATIONS.

- a) the CENTRAL ASEAN NATION throughout the Central Asean regions
- b) the CENTRAL Middle Eastern Regions
- c) the CENTRAL African regions
- d) the CENTRAL South America Regions
- e) the CENTRAL Satellite States
- f) and eventually all CENTRAL NATIONS worldwide, for those who wish to also make their regions for their people into a future with a better life.

Working in the ONENESS of all UNITY is the ONLY way forward.

Two people, one man and one woman from each CENTRAL NATION are all who are needed to sit at the round table of CONSENSUS OF **THE CENTRAL UNIFIED NATION** which "replaces" the United Nations with its Oligarchy, Hierarchy, and many fragmented bodies.

- a) **other CENTRAL BLOCS OR CENTRAL NATIONS** may put into practice a blueprint or diversify those presented in order to govern the culture and society of specific CENTRAL NATIONS OR BLOCS.
- b) **these blueprints MUST NOT** use the monetary system nor collect usury as many religious establishments do in cooperation with the banking industry.
- c) **no NATION will be excluded** but each treated as equals once their own CENTRAL NATION IS SET UP IN CONJUNCTION WITH ONE ANOTHER.

Within the Federation of Unified and Free Planetary Worlds' Talent and Purchase Order system, MONETARY FUNDS OF CURRENCY EXCHANGE SHALL BE CONSIDERED A LIABILITY AND THEREFORE SHALL BE FOUND OBSOLETE IN ALL ASPECTS OF DEALING WITH EVERY OTHER NATION WHOSE CENTRAL

NATION or (Villages, Towns, City Districts) are tied into the other CENTRAL BLOCS OR CENTRAL NATIONS of ANOTHER CENTRAL NATION BLOC.

These CENTRAL NATIONS, OR CENTRAL BLOCS with two representatives from each **shall REPLACE the present United Nations** in that each NATION IS EQUIPPED WITH A CENTRAL NATION OR BLOC of its own in dealing with its own culture, “based” upon the rule of Universal Principle or Higher Law which will result at all hours in evolved morals and ethics throughout the Whole or Universal Total of all NATIONS acting in the **ONENESS**.

Remember people, there are only mysteries if people are uneducated or uninformed in the realms of those worlds which they have not yet seen or remembered.

We surely do hope by now that you do begin to understand and know that ye are not alone in this great universe, for what arrogance could then be said of this present HUmanity if they were to think at this lowly war loving existence that they were indeed the highest evolved creatures in the Universe.

What nonsense is that. We hope we have now been of greater assistance to ye all this new day.

Where one travels, one is sure to meet up with a challenge and if not a challenge then one has not travelled very far.

The BLUEPRINT Philippines - INTRODUCTION TO THE ASEAN SILK ROAD

1. IN UNDERSTANDING THE ANCIENT SILK ROAD AND WHAT IT HAS BECOME TODAY

During the event of the first seeding of this planet we starmapped as being called Angorius, many diverse Original blueprints belonging to many diverse races coordinating themselves from many diverse worlds within both the galaxies as well as universes, **were brought to this world and implemented.**

These blueprints were all approved by the Federation of Unified and Free Planetary Worlds.

None of these blueprints broke Universal Principle nor Higher Law.

None of these blueprints worked upon the monetary trade system of those who broke through the fabric of space due to an accidental event which the scientists and

laboratory technicians belonging to the Federation of Unified and Free Planetary Worlds could not control.

These invaders and occupiers which **were known as the Hellions**, first put in place the crippling monetary system with its religious schematics or doctrines.

It was from them the word **"HELL"** came to be known **as representing the money system and its co-partner, religion.**

You may read their and your own story in our records of **"The First Seeding"** of this present earthen world.

2. CENTRAL ASEAN NATION - EXCEPTION - WHAT THE SILK ROAD HAS BECOME TODAY UPON ITS WAY TO PERFECTION

For example:

Portugal being, we would say, the most "important hub in the land and maritime Silk routes," would well see China at this time in representation of the CENTRAL ASEAN NATION to offer a wing of protection to Portugal ***economically** in setting the nation also upon its feet, until hopefully, the European Nations, themselves, come together in setting up their own Central European Nation in the same way and as we all are working in Asea toward the establishing and understanding the CENTRAL ASEAN NATION.

(*loans which do not need paid back and no usury collected which will soon make the banking industry obsolete)

The new Silk Waterway, Silk Road, Silk Railways, Silk Ports are more than a wise solution; they guarantee good mobility of the goods and services which shall one day, hopefully, challenge the peoples of the nations to look further than that of their own back door and work in a ONENESS with one another.

Here is a distinct challenge for Europe, but since Portugal, for instance:

a) **has no other parts** of the European body to rely upon, except for those who are weak

b) **and since China in representative** of the CENTRAL ASEAN NATION (one man and one woman) has no intention of invading Portugal for its resources nor to make slave labour of the peoples of Portugal, (but instead to offer the Portuguese people a way out of an impoverished situation),

c) **we would allow this good and feasible move** to stand in the CENTRAL ASEAN NATION Blueprint, where one representative consisting of one man and one woman, of a CENTRAL NATION of the CENTRAL UNIFIED NATION would gently and firmly

assist that of another nation or Central Nation outside of the Central Nation it represents.

This is the conclusion of the BLUEPRINT Philippines in its entirety.

Good Afternoon, Good Evening, Good Day, and Good Night.
